

Dr. Albert Bender

European Patent Attorney

Dr. Bender is a PhD chemist with particular experience in polymers, dyestuffs and pharmaceuticals, gained in a long and successful industry career at Hoechst AG. Dr. Bender is active in intellectual property law since 2001 and a European Patent Attorney since 2010.

Technical Expertise

Dr. Bender holds a PhD in chemistry from the Friedrich-Alexander University in Erlangen-Nürnberg. His diploma and PhD work was focused on experimental work in the field of organic chemistry, in particular rearrangement reactions of bridged carbon compounds, including advanced crystallography work.

Between 1978 and 2001, Dr. Bender worked in the chemical industry in diverse fields, functions and sites, with a focus on research and development. His activities included the scaling up of newly developed products, in particular optical brighteners, dyes, pigments, pharmaceuticals, crop protection products as well as polycondensates and polymers. Dr. Bender's activities have led to numerous patents and commercial products.

Intellectual Property Expertise

Since 2001, Dr. Bender has specialized in the field of Intellectual property. In 2007, Dr. Bender joined the patent law firm Wallinger and Partner and was admitted as European Patent Attorney in 2010. Dr. Bender's current IP focus is on managing large patent portfolios of companies of the chemical and pharmaceutical industry.
